SUBJECT INDEX TO VOLUME 7

Accident information and response, 29
Acrylate esters, biological reactivity and toxicity of, comparison of methacrylate esters, 1
Advanced technology research laboratory, construction of, public approval for, 17
American Industrial Health Council, viewpoint on classification of chemical carcinogens, 45

Bhopal, high-priority pollution control issues in the aftermath of, 109
Biological reactivity, comparison of acrylate and methacrylate esters, 1

Carcinogens, classification of chemicals, American Industrial Health Council viewpoint, 45
Chemical carcinogens, classification of, American Industrial Health Council viewpoint, 45
Chemical incidents, control measures following, in the Port of Rotterdam, 85
Construction of an advanced technology research laboratory, public approval for, 17
Control measures following major chemical incidents in the Port of Rotterdam, 85
Control programs, toxic chemicals, economic evaluation of, 53

Economic evaluation of toxic chemical control programs, 53

Hazardous-waste cleanup costs, an approach for controlling, remedial action management oversight, 97
Hazards, review and communication, material safety data sheets, 73

Management, remedial action oversight, controlling hazardous-waste cleanup costs, 97
Material safety data sheets, hazard review and comunication, 73
Methacrylate esters, biological reactivity and toxicity of, comparison of acrylate esters, 1

Pollution control, high-priority issues in the aftermath of Bhopal, 109
Port of Rotterdam, control measures following major chemical incidents, 85
Public approval for construction of an advanced technology research laboratory, 17

Shipping spills, recent experiences from, 39

Toxic chemical control programs, economic evaluation of, 53
Toxicity, comparison of acrylate and methacrylate esters, 1
